Dear Sean:

I want to express my sincere thanks for the way Construction Network, Inc. completely satisfied the need for both an Early Voting Center and Voting Machine Storage Facility for the citizens of Craighead County. We are so proud to have such a useful, convenient and attractive building.

The way you were able to take an out of budget project and work with Craighead County and the architect to bring the cost within our budget without us giving up any usable space that we had in the original plan was just phenomenal and a blessing.

It has again been a pleasure working with your entire staff. Having Maxie Stem as the on-site superintendent made sure the project was completed in a timely manner. I know that most every county in the state faces similar needs that this new facility answered for Craighead County. If I can answer any questions about our new Voting Annex, just have them give me a call.

Sincerely,

Dale G. Haas
