

Jonesboro Municipal Airport Commission

P.O. Box 1293 • Jonesboro, AR 72403 • 870-935-8669

To Whom It May Concern:

The Jonesboro Airport Commission completed its new 1 million dollar, 7,000 square foot Airport Fire Rescue Building in 2006. Construction Network was the general contractor who built the building in a professional, quality manner. All phases of work was done in a timely manner with no interruptions to the daily operation of the airport. Construction work in and around an airport can be very difficult at times in dealing with new FAA and security regulations but CNI was able to meet and exceed in every area.

The Jonesboro Airport Commission is very proud of this new facility and its appearance in which CNI did an outstanding job.

I would recommend this company for any project large or small.

Sincerely,

A handwritten signature in cursive script, appearing to read "Philip D. Steed".

Philip D. Steed
Airport Manager
