

To Whom It May Concern:

I am pleased to have the opportunity to recommend Construction Network Inc., George Stem, and his organization.

As former contractors involved in the Southland Greyhound Science Center Building, Construction Network, Inc., brought a wealth of experience and reliability to the job. They worked hand-in-hand with the architect to ensure that the project stayed on budget and ahead of schedule. I was particularly pleased with the above average workmanship provided and that the needs of Mid-South Community College came first.

It is without reservation or hesitation that I recommend their services. You will not be disappointed.

Sincerely,

A handwritten signature in black ink, appearing to read "Glen Fenter", written over a horizontal line.

Dr. Glen Fenter
